

# Registered Guest Sponsoring Carriers

Updated: 17 November 2017

**Please note:** Some airlines require the employee travels WITH the registered guest/travel companion. When you try to select an airline that either does NOT permit registered guest travel, or the registered guest must travel with the employee, you will see this error message:

1. Click on "Selectable Flights Only" – see yellow circle.
2. Click on "Flight Details" on the left side of each flight.
3. A reason why flights are not bookable will appear.
4. This may work with other passenger types; sometimes you will need to book everyone separately.
